SELF-PRIMING CENTRIFUGAL PUMPS**APPLICATIONS**

- Lawn Sprinkling
- Pressure Boosting
- Sprinkler Systems
- Light Irrigation
- Dewatering clean liquids
- Transfer from underground storage
- **Fast Priming** pump stays primed. Flapper and check valves on suction pipe are not required, but are recommended.
- **Non-overloading** performance at all catalog ratings.
- **Continuous** duty motors.
- **Leak Proof** mechanical shaft seal - self adjusting.
- **Cast Iron Casing** with suction, discharge, prime, vacuum gauge and drain tapings.
- **All Bronze or All Iron** construction available.

- **EVERY** pump is factory tested and will meet Hydraulic Institute standards.

MAXIMUM OPERATING CONDITIONS

TEMPERATURE (For Standard Buna-N Seal)	225°F (107°C) * 175°F (79°C)
INLET PRESSURE	100 PSI (690kpa)
CASING WORKING PRESSURE	200 PSI (1379kpa)

MOTOR INFORMATION

60 Hz - 3500 RPM - ODP

Single Phase: 1 thru 2 Hp. - 115/230 Volt
3 Hp. - 230 Volt

Three Phase: 1 thru 3 Hp. - 208-230/460 Volt

Voltages may differ from some suppliers. Consult factory.

Overload Protection: All single phase ODP and totally enclosed motors have built-in overload protection. All three phase motors and all explosion proof motors must be installed with a magnetic starter which provides full 3-leg protection. Failure to use correct starter and overloads will void motor warranty.

SERIES: WA6

*WA6 Series pumps have been manufactured with either Noryl or Bronze impellers as standard. All replacement impellers will be Noryl as listed, unless bronze is specified.

For bronze impellers, refer to "Differing Parts for All Bronze Construction."

Stock pump Catalog Numbers shown for 1 phase units. Use same impellers and diffusers for 3 phase units.

For technical advice or service please take your pump into your local pump service center.
