

Model 18690-0010

DESIGN FEATURES

- Pump: **Self-Priming Flexible Impeller with Stainless Steel Wearplates**
- Impeller: **JabSCO Nitrile Compound**
- Macerator: **Cast Bronze Cutter Plate reduces particle size to 1/8" maximum**
- Seal: **Lip Type**
- Ports: **Inlet — 3" Slip-on Hose
Outlet — 1" ID Hose Barb**
- Motor: **115 Vac, Single Phase, 60 Hz, Thermal Overload Protection**
- Weight: **17 lb (7,7 kg)**

Model 18690-0010

APPLICATION INFORMATION

The Par 18690-0010 ac macerator pump unit is the ideal answer to waste handling problems for recreational vehicle and domestic uses. The macerator section grinds waste down to a particle size of 1/8" maximum so it can be pumped easily through a 1" hose discharge line. The pump section is self-priming, permitting the unit to be mounted above or below the tank in a convenient location.

Empties most recirculating toilets in just one minute, empties a 30 gallon holding tank in only 3 minutes.

The 18690-0010 waste pump will macerate and pump all waste and tissue normally found in recreational vehicle waste systems. **IT WILL NOT HANDLE HARD SOLID OBJECTS, SANITARY NAPKINS OR RAGS.**

HEAD CAPACITY TABLE

FEET OF HEAD	GPM
5	14.0
10	13.0
20	10.8
30	8.6

Flow rates are for water, capacity may be slightly reduced when handling heavy solids. Full load Amps—7.2.

INSTALLATION INSTRUCTIONS

Locating the Pump: The PAR ac macerator pump unit is self priming to a six foot length and may be located at any convenient point in the waste discharge system. (For optimal efficiency, locate pump as close to waste as possible).

Plumbing Connections: Use a 3 inch ID non-collapsible hose and clamp on outside diameter of macerator housing. All suction connections must be airtight and free of sharp bends or restrictions. Use minimum 1" ID contractors hose for discharge.

Be sure adequate voltage and current capacity is available in electrical installation.

For technical advice or service please take your pump into your local pump service center.
