

VDS PIGGY-BACK VERTICAL DIAPHRAGM SWITCH

Features

- Heavy duty switch contacts
- Designed for use in confined areas
- Not sensitive to turbulence
- Controls pumps up to 1/2 HP at 120VAC, 13 amps max.
- UL listed and CSA certified for use in water and sewage
- Pressure activation
- Pumping range 6" or 10"
- Stainless steel mounting brackets

The vertical diaphragm switch provides automatic control of a pump in water and sewage effluent applications. The design allows it to operate in applications with limited space, such as small sump chambers. The VDS features models with either a 6" or 10" pumping range.
